

# Don't let the fear of withdrawal stop you from seeking recovery

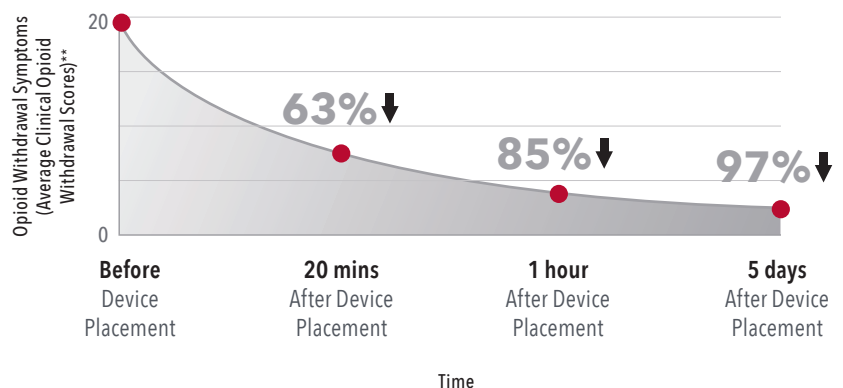

## Introducing Bridge™ Drug-Free Opioid Withdrawal Device

Helps reduce the symptoms of opioid withdrawal

The first FDA-cleared medical device for management of opioid withdrawal symptoms\*

- > Demonstrated in a clinical study to reduce withdrawal symptoms
- > May provide relief from opioid withdrawal symptoms in as soon as 20 minutes<sup>1</sup>

## HOW DOES BRIDGE WORK?

Applied by a qualified healthcare professional in a non-surgical, in-office procedure

Fits comfortably behind your ear

Each device provides five days of continuous relief

Sends gentle electrical impulses through wires to nerves around your ear

Stimulated nerves transmit these impulses to the brain, reducing withdrawal symptoms

## WHO CAN BRIDGE HELP?

Can be used by people\*\*\* experiencing opioid withdrawal symptoms while:

- > Initiating treatment for opioid addiction
- > Transitioning to medication assisted treatment using naltrexone
- > Tapering off medication assisted treatment

### Ask your doctor today about how Bridge can help you.

\* Bridge is FDA cleared for the treatment of opioid withdrawal symptoms only. It is not intended to be used to directly treat opioid use disorders.

\*\* Percentage reduction is based upon Clinical Opioid Withdrawal Scale scores monitored on 73 patients suffering from opioid withdrawal symptoms.

\*\*\* Do not use if you have hemophilia, psoriasis vulgaris, or a cardiac pacemaker.

<sup>1</sup> Miranda A, Taca A. Neuromodulation with percutaneous electrical nerve field stimulation is associated with reduction in signs and symptoms of opioid withdrawal: a multisite, retrospective assessment [published correction appears in *Am J Drug Alcohol Abuse*. 2018;44(4):498]. *Am J Drug Alcohol Abuse*. 2018;44(1):56-63. doi:10.1080/00952990.2017.1295459.

Caution: Federal (USA) law restricts this device to sale by or on the order of a physician. See instructions for use for full prescribing information, including indications, contraindications, warnings, and precautions.
